Gaza is indeed the *Karbulaa* of our time, for in both cases, the honourable few, who have the truth on their side, had to face off the many that are armed to the teeth, driven by evil impulses and hell-bent on making the rule of the jungle prevail.

Around this time last year, the sky over Gaza was raining death on the heads of more than 1.5 million men, women and children whose enduring vigour and legendary determination to survive and be free infuriated the cruel, raving Zionist beast.

The enemies, the conspirators, the plotters, the abettors and connivers were just too many. Even the supposed brothers who were supposed to honour the obligations of blood and faith were busy indulging in their wanton perfidy and treachery, to see their brothers decimated and humiliated.

The goal was no less than the decapitation of Gaza and the destruction of the burgeoning promise of freedom and liberation from the claws of the wicked, the Nazis of our time. Wasn't this the ultimate goal of the Jewish Reich?

But Hamas was not a movement to be decapitated or destroyed, not because it had sufficient material power to defeat the American-embraced Zionist Goliath, but rather because it was and continues to be lodged in the heart of every man, woman and child in occupied Palestinian as well as in the hearts of all free and honest men and women around the globe.

To put it in a nutshell, one can't really be truly honest and conscientious if he or she doesn't stand alongside the Palestinians.

The epic of Gaza has not yet come to a close. Many other chapters remain to be scribed with the blood of martyrs and the pain of sufferers. But, let there be no doubt, Gaza will triumph over the forces of evil, and the burgeoning tree will grow even bigger and bigger, with its roots going deeper into the belly of the land and branches soaring higher than ever before as if wanting to embrace the souls of the martyrs.

Eventually, the homes and mosques will be rebuilt, and Gaza will glow anew with pride and glory as it has always been.

As to the martyrs, they will find satisfaction and content in the company of their Lord. There is, as the Holy Quran says in the last verse of Suratul Qammar (Moon), an **"Assembly of Truth in the Presence of a Sovereign, omnipotent God."**

What happened in Gaza a year ago exposed naked all the agents of evil and hypocrisy. It exposed the Israeli occupiers of our land, showing them as they really are, as cruel, satanic murderers who don't hesitate to commit the most evil crimes in order to satisfy their sadistic urges and satiate their unvanquished thirst for the blood of the innocent.

The firestorms over Gaza not only incinerated the tender flesh of hundreds of children and other innocent civilians, but also exposed naked the Zionist mindset and evil morality, characters which resemble the mindset and morality of the German Nazis, the ultimate ideological mentors of Israeli war criminals, namely Barak, Livni, Olmert, Ashkenazi and a long list of child killers, who should be shipped like drugged wild beasts to The Hague to stand trial for their monstrous crimes against humanity.

The virtual holocaust in Gaza also underscored the fact that Israel is irredeemably evil and that as such, it should be eradicated from the face of earth. After all, if one doesn't eradicate cancer, cancer will eradicate him, and Israel is a real cancer.

The three-week campaign of murder and terror also exposed the evil hypocrisy and moral duplicity of Western powers such as the United States and the European Union. The disgraceful stance of these so-called "civilized countries" manifested itself in the ugliest form when the governments and leaders of these countries were gleefully watching the Judeo-Nazis gang up, murder and brutalize the innocent people of Gaza for no other reason except that they chose to elect a political party that the U.S. and the Judeo-Nazi regime didn't like.

These are the same governments and the same States that don't stop lecturing the world about the virtues of human rights and civil liberties when in fact they help consolidate tyranny and effect criminality all over the world, especially in places such as Palestine, Pakistan, Afghanistan and Iraq.

With Western hypocrisy and mendacity becoming crystal clear, we the Muslims of the world don't want to have anything to do with their democracy and human rights. We shall not drink their poisoned chalice; we will not be deceived by them for the umpteenth time.

Finally, the virtual Gaza holocaust exposed as never before the total hypocrisy and pornographic perfidy of certain Arab regimes. Needless to say, these notoriously impotent regimes preach solidarity with the Palestinian people in daytime hours while plotting with Israel at night to murder and starve our children and narrow our horizons.

We know and the Arab peoples know too well the identity of those who conspired with Israel to bomb Gaza to smithereens. We know the details of the criminal understandings they reached with Livni, the Judeo-Nazi thug who expressed deep satisfaction at seeing hundreds of small kids killed mercilessly by the latest American technology of death.

Surely, history will not be kind to these traitors if only because the practitioners of perfidy, treachery and betrayal against their brothers in faith are really much worse than the criminal Zionist murderers themselves.

Today, the evil traitors are not only preventing food and medicine from reaching the blockaded people of Gaza. They are actually erecting deep steel walls along Gaza's eastern borders in order to strangulate and starve its people under the false rubric of protecting their national security!

Well, I really fail to understand how the national security of an Arab Muslim country, which doesn't stop bragging about its old civilization, is served and enhanced by starving their brothers in faith and neighbours and placing them under the mercy of the Judeo Nazis.

In fact, Gaza has always been and will continue to be an unquestionable asset for the security of Egypt, which exposed the mendacity and propaganda spin coming from Cairo.

Nevertheless, the people of Gaza shall overcome this blasphemous treason that is being forged in cooperation with the U.S. and on behalf of Israel.

May the evil ones perish, ameen.
